

## ELEVEN MEET DEATH IN MINE EXPLOSION

### DYNAMITE CHARGE IS CAUSE OF DISASTER IN HARRISBURG MINE

#### OVER FOUR HUNDRED MEN WERE IN MINE

Dead are in Local Morgues Awaiting Identification by Relatives—Seven Men Are in Hospital Suffering from Black Damp—Authorities Will Conduct Investigation

HARRISBURG, Ill., Aug. 31.—Eleven dead miners bodies were brought to the surface of the Harco mine from a depth of 445 feet and 1,000 feet from the mouth of the mine at 6 o'clock tonight. The entire number were entombed this afternoon when a dynamite charge in a new coal bed penetrated an old walled room, providing means of escape of black damp, which it is believed killed the miners.

A check of the miners at 5:30 o'clock this evening showed that 436 miners had entered the shaft this morning and that all but those dead had been returned to the surface. Warnings after the explosion by miners in a nearby shaft probably saved the lives of those who were sent to the surface.

The crew of 17 miners were engaged in working a new coal bed near an old shaft which had been walled in when the drill exploded a charge of dynamite which crushed the old vein walls and entombed himself and fellow workers, according to the reports from the mine.

### FIELD MARSHAL VON BUELOW IS DEAD IN BERLIN

Commander in Chief  
of Second Army in  
World War

BERLIN, Aug. 31.—Field Marshal Count Karl von Buelow, who was commander-in-chief of the German second army during the war, died here today.

Marshal von Buelow, who was 76 years old, was one of Germany's leading commanders during the war. He was raised to the rank of field marshal January 27, 1915, in the 56th anniversary of the Kaiser's birth.

Marshal von Buelow's name was among the list of Germans whose surrender after trial was demanded by the treaty of Versailles. After his name was published he declared publicly that the Germans whose names were on the list of those whose extradition was demanded by the allies "only did their duty to the fatherland," and that extradition was an ignominy to which "no German would voluntarily submit."

At that time the field marshal declared that he would never place himself at the disposal of the entente nations and expressed the belief that most of the commanders named in the list would take a similar view.

### KEEPER OF LIGHT HOUSE SAVES THREE FROM DROWNING

Dives for Two Who Go Under When Sail Boat Capsizes

(By The Associated Press)  
EVANSTON, Ill., Aug. 31.—Patching an abandoned row boat and using a board for an oar, Charles Moore, keeper of the Gross Point light house, here, saved Robert Ball and Kenneth Ball, of Evanston, and David Watson, of Kansas City, from drowning. Moore was standing in front of the lighthouse when a veering gust of wind overturned the boat in which the boys were sailing a quarter mile off shore.

Moore improvised his oar, filled holes in an abandoned row boat with cloth and reached the overturned boat in time to dive and rescue Robert Ball and Watson, who had become exhausted in battling the short, choppy waves of Lake Michigan. Kenneth Ball was able to reach the rescue boat unaided. None of the lads could swim.

Evanston coast guards brought the sail boat to shore after the off shore wind had driven it some distance out into the lake.

Mrs. Martin is charged with assault to commit murder and carrying concealed weapons and Battersby is named as accessory on the assault charge.

Martin claims that while standing on a street corner in the fashionable "gold coast" section last Saturday night, talking to his sister, Mrs. Martin and Battersby were in one of Martin's cars and that Battersby turned the spot light on him while Mrs. Martin fired six shots.

### MUST PROVIDE FARMERS WITH CREDIT AT ONCE

Would Fill Gap Between Short and Long Time Credits

(By The Associated Press)  
WASHINGTON, Aug. 31.—Permanent agencies should be established to provide credit running from six months to three years for farmers' production and marketing purposes to fill the gap between short and long time credit furnished by existing banking systems, Chairman Anderson of the congressional commission investigating agricultural conditions, declared today in a statement. There is immediate, imperative and conclusive necessity of setting up permanent machinery, he said.

The proposed credit, the statement continued, must be of such character as to conform to the farmers' turnover, and of sufficient flexibility to meet the varied requirements of different localities and different commodities.

Mr. Anderson contended the credit should be extended "for a time sufficient to enable payment to be made out of the earnings of the farm, without frequent renewals which add to the expense of the borrowers in fees and commissions."

Declaring that machinery of sufficient scope can be established only thru federal legislation, the chairman held that, once established, it should be self-sustaining and should require no government support except possibly for the initial capital to put it in operation.

Such a system, he continued, must be comprehensive enough to meet the requirements not only of the large farmer borrower, but the small farm borrower with limited assets. "There are two essentials of such a credit machine," the statement said.

Deal Directly With Farmers.  
"The first is an agency to deal directly with the farmers. These agencies should be sufficiently numerous to meet the requirements of every farmer. Two agencies now exist which may be used as the point of contact of the system with the farmer borrower."

The second is an agency which can convert a large number of small obligations of the farmers into short time debentures, or other credit obligations which can be sold to the investing public. In other words it is necessary to have an agency thru which the investing public can be reached.

The character of both agencies is largely dependent upon whether it is proposed to have the debentures or securities absorbed by the deposit pool represented by the deposits of the national and state banks and the liquid assets of the country or by the investment pool, representing the credit ordinarily invested in long time securities.

On completion of its inquiry, the commission, Mr. Anderson declared, would be able to recommend to congress "a definite concrete plan" which he added would complement the credit facilities now offered thru the farm loan and the federal reserve systems and "would give to the American farmer the most comprehensive and flexible credit system in the world."

### WARNS AGAINST SENTIMENT FOR LAW VIOLATORS

There is Danger in it Says Attorney General Daugherty

(By The Associated Press)  
CINCINNATI, O., Aug. 31.—Theories of political philosophy now advanced by those who either violate law or sympathize with law violator in industrial conflicts and agitation to upset American forms of government and against enforcement of prohibition statutes are the greatest force at work in the United States to undermine respect for the law, Attorney General Daugherty declared today in an address before the American and Ohio Bar associations.

Arguing equally against sentiment that regards a convicted I. W. W. as a "hero of conscience" and "political prisoner," that holds a bootlegger an exponent of personal liberty and sets the slogan of "human rights against property rights," in employment disputes, Mr. Daugherty asserted fallacy and danger lay in all.

The attorney general in his address which was his first since assuming office suggested a method of informing public opinion by semigovernmental means to obviate industrial conflicts but advocated complete disregard for theories advanced in the two other fields. He declared the demand for "personal liberty" in prohibition enforcement had been "advanced in the past by every champion of lawlessness who has sought excuse for unlawful conduct."

"Supremacy of the law is not undermined by the ordinary criminal who commits murder, robbery, larceny," Mr. Daugherty said. "To the contrary every occurrence of crimes of this sort tends to impress upon society the profound importance of law and its vigorous enforcement."

The Undermining Forces  
"At the present time among the forces undermining respect for law \* \* \* are the doctrine of so-called political offense, erroneous conceptions of personal liberty, and false doctrines as to the rights of individuals and minorities."

Resentment of large corporations of "persons and capital," against "interference of laws regulating them," Mr. Daugherty said, involved a "mistaken attitude for law and order is the shield of business and its only security."

The attorney general who recently made a study of the cases of Eugene V. Debs and others serving sentences for violation of war time laws discussed at length the question of political offenders.

"There is now being disseminated extended propaganda to dignify the crimes committed by many persons now in prison for disloyal conduct, or obstructing the government in the war with Germany by a general doctrine not only to have such persons freed, but to have this doctrine of political offenders recognized as part of our domestic law, the purpose being to allow such criminals and those in sympathy with them to continue such opposition to law and order with impunity."

"This propaganda has been waged by persons mainly hostile to American institutions for the purpose of educating the public as to the distinction between political offenses and common crimes. These propagandists term all the anarchists, I. W. W., and Socialists convicted of law violations, idealists and heroes of conscience and demand their release on the ground that their acts are political offenses merely." Assault upon the prohibition amendments and laws, he continued, involved an erroneous theory of personal liberty under our constitutional system.

Only One Course of Conduct  
"They may still debate the wisdom of the law," he asserted, "but there is only one course of conduct and that is obedience to the law while it exists."

"The constitutional safeguards of minorities in this republic leaves no excuse for any person to hold his law in contempt, he said in discussing the point. "Those who do not believe in our government and the enforcement of our laws should go to a country which gives them their peculiar liberty."

"My duty is clear. As long as I am responsible head of the department of justice the law will be enforced with all the power possessed by the government which I am at liberty to call to my command."

### WASHINGTON TOLD TROOPS NEEDED TO REPEL INVADERS

Logan County Authorities Send Message That the County is in Danger from an Attack of Several Thousand Men—Two Volunteers are Killed at Blair Mountain

(By The Associated Press)  
LOGAN, W. Va., Aug. 31.—Logan authorities tonight announced that a telegram had been sent to Washington stating that unless troops were sent at once the county would be attacked by between 4,000 and 6,000 men.

Sheriff Chafin at the same time issued the following statement to newspapermen:

"There has been more or less continuous firing on four points of the line today. The points are Beach Creek, Blair, Crooked Creek and Mill Creek.

"We have received no information as to the number killed on the opposing side. We know one miner who was shot when striking at our men. The most serious fighting was reported from the vicinity of Blair, where our opponents advanced one mile and there also were turned back. The furthest advance was in the Peck's Hill district where they advanced two miles along Hewitt Creek. Here we also drove them back."

Huntington, W. Va., Aug. 31.—Two volunteers and one deputy were killed during the morning's engagement on Blair Mountain, in Eastern Logan county, according to a statement given to a Huntington newspaper by the office of Sheriff Don Chafin at Logan tonight.

The sheriff's office announced the dead were:

John Cofage and Jim Munster, volunteers, assisting county authorities maintain order and John Gore, a deputy sheriff.

Logan, W. Va., Aug. 31.—Hostilities continued today between forces of armed men who had been collecting on the eastern slope of Spruce Fork Ridge and the thousand or more deputy sheriffs and volunteers who had been called to the aid of the officers of Logan county. Despite President Harding's proclamation asking the armed men to disperse and not violate the law one deputy sheriff was killed, another missing and one of the armed men lost his life when outposts clashed at widely separated points.

Additional reports received by Sheriff Don Chafin of Logan county and Sheriff Bill Hatfield of McDowell county were to the effect that three other men had been killed in an encounter at Mills creek. This latter, however, lacks official confirmation.

Other developments of the late afternoon included the announcement that the invaders had advanced their lines two miles during the day and on the Logan sector were only four miles from the county forces.

At Peck's Hill, headquarters of the McDowell men, six miles of rough mountain country were said to separate the outposts of this ward section, scouting parties from both sides passed during the day and while details were lacking, it was assumed here that the casualties were caused when they came in contact with on another.

Surgeons and nurses were sent to Peck's Mills where a field hospital was established late in the afternoon. Other hospitals it was said would be ready before tomorrow.

Sheriff Chafin and Sheriff Hatfield made a tour of the front before night fall and it was expected that upon their return the exact position of the opposing forces would be made known.

Scene of Intense Activity.  
Little county town of Logan was the scene of intense activity. Volunteers continued to come in from all over the southern part of the state. Women of the county served them with food and hot coffee while trained military men organized them into service units and hurried them to the front.

The unusual situation confronting the people of Logan county, which has been described by Governor Mcran as an intersection of the direct outgrowth of the long controversy between the organized and unorganized miner of this section. All of Logan county east of Spruce Fork Ridge is unorganized but the little section lying between the eastern slope of the mountains and the Boone county line is filled with union miners. These men last week prepared to join the march of other union men from Marmet to Mingo county to protesting against the enforcement of martial law in the Mingo coal strike zone.

The march was stopped at Madison, the county seat of (Continued on Page Four.)

### TWO HOLDUP UNION PACIFIC TRAIN IN UTAH

Rob All Male Passengers and Escape at Salt Lake City

(By The Associated Press)

SALT LAKE CITY, Utah, Aug. 31.—The Los Angeles Limited, No. 7 of the Union Pacific System was held up by two masked and armed robbers shortly after two o'clock this afternoon near Clearfield, nine miles south of Ogden, while on the way from Ogden to Salt Lake. All of the male passengers were robbed.

The train was stopped by an automatic block signal. The two robbers boarded the train and commanded everyone in the observation car to hold up their hands. While one gathered loot in the observation car, the other proceeded to the other car. The exact amount taken is not known.

The train is not scheduled to stop between Ogden and Salt Lake City.

After a few minutes delay the robbers signalled to Robert Mayes, the conductor to have the train started. It came on toward Salt Lake City.

Nearing the outskirts of the city the robbers pulled the cord and again brought the train to a standstill. They alighted and escaped in the northern part of the city.

One passenger in the observation car rather than hold up his hands jumped from the train. As he was fleeing one of the bandits shot at him.

L. A. Torrains and wife of New York, occupying a drawing room were among the victims. They reported a loss of \$13. H. M. Grunder, a commercial traveler of Salt Lake City, reported a loss of \$75.

The women and children on the train were not molested, with the exception of Mrs. Torrains.

While the train was speeding here one passenger scribbled a note and threw it out of the window. It was a notification that the train had been held up. A railroad employee picked it up and telephoned headquarters here. A posse was immediately organized but by the time it reached the incoming train the robbers had departed.

### RETURN FROM WESTERN TOUR

They camped by the way and had a very enjoyable time. They have returned in the best of health and spirits to receive a cordial welcome from the church.

If the number of picnics and chicken fries scheduled in Morcan county for August and September can be taken as evidence, certainly the return to normalcy hereabouts is being made at a very rapid rate.  
In one block on a street leading to the square yesterday afternoon owners of two new automobiles were driving their machines for the first time. Other car purchasers in recent days have also been noted. Here too is further proof of improved business conditions.  
The claim is made that the delay in awarding of contracts for hard roads authorized by Gov. Small Tuesday represents a saving to the state of \$2,000,000 by comparison with the figures submitted four months ago. Certainly the governor has handled the good roads project of the state in a manner dictated by sound business judgment and the proper regard for economy in the operation of the state's business.

**KEEPING BOYS AND GIRLS IN SCHOOL**  
August 29, 1921.  
The Journal.—  
I have been much interested reading in the Courier the account of the successful advertising campaign recently carried on in Providence, Rhode Island, to keep boys and girls in the schools. In two years they raised the percentage of students entering the high school from the eighth grade from less than 73 per cent and to 95 per cent.  
This is fine work, and greatly worth while in every community. The greatest asset of any community is its boys and girls. The greatest asset of any young man or woman is education and character. A year added to the school life of any boy or girl is a distinct gain both to the individual and the community. The best advice that can be given to any young person is “Go to school another year.”  
It will be worth while in Jacksonville for the Rotary club, the Kiwanis club, the Woman's clubs, the teachers in the schools, to organize definitely, and appoint committees to cooperate with the Parent-Teachers' association, to see that boys and girls keep on in the schools from year to year until they graduate from the high school. It would be good if the superintendent of schools would keep a record, and publish it every year showing what the percentage is of those who go on, and of those who drop out. This should be done, not only from the eighth grade into the high school, but also for each year of the high school course.  
It will pay the community equally well to go a step higher. Jacksonville is greatly favored in that it has colleges for its young men and women so that they may secure the best college advantages without leaving home. It is a pity and a shame for young men and women in Jacksonville to miss these opportunities for lack of interest, either on their own part or on the part of the community. If the club of men and women, and the fathers and mothers, and the churches, and the Chamber of Commerce, would set themselves to this problem, as the citizens of Providence have, the number of those who, after graduating from high school, would enter the colleges, could be largely increased.  
This is a fine field for constructive, co-operation, civic effort, that would cost nothing but time and organized interest, and that would be worth more than we can estimate both to the young people, and Jacksonville, and every community to which they may ultimately go.

Writes Sell Now League That We Have Passed the Valley of the Business Depression.  
Herbert Hoover believes that goods can be sold right now by consistent, persistent effort. He also believes that business is recovering from the slump.  
The Sell Now League, which was started as the result of a Cosmopolitan editorial, has been carrying on a campaign to encourage merchants and manufacturers to sell their products more intensively to that part of the consuming public which is in a position to buy them.  
Mr. Hoover, who has been interested in the progress of this movement, recently sent the following letter to J. Mitchell Thorsen, chairman of the Sell Now League. He is optimistic and his remarks will be inspiring to business men generally.  
J. Mitchell Thorsen, Esq.  
Sell Now League,  
119 West 40th Street,  
New York City.  
My Dear Mr. Thorsen:  
There is never a very long period in peace times when goods cannot be sold by consistent, effort—simply because the human animal goes on consuming. He slows up at times, but over a long term both his production and consumption is always increasing.  
We have had fourteen depressions since the Civil War and fourteen periods of prosperity, each of the latter greater than the one before. We have passed the valley in this slump—the worst and most rapid we have ever fallen into—but we are coming out of it steadily thru the intelligence and capacity of our business men.  
Faithfully yours,

### "Big City" Prices

—We have known always that prices charged in this city for made-to-measure suits and overcoats, taking the identical cloth into consideration, were much less than those charged in other cities. But, it has been difficult to convince many persons of this fact.

—Recently several men have called at our store and talked with us about suits. They knew woollens so they could not be fooled. They got our prices and found for a fact that we are from \$30. to \$50. under "Big City" prices for the same garments.

—Why then buy away from home?

—Our new goods for fall and winter suits and overcoats are in—Now.

—All we ask of the men of this community who like and wear good clothes is to call and see the new fabrics, get our prices and let us show them just how and why Jacksonville prices are lower. No obligation is entailed. We gladly welcome the opportunity.

## WASHINGTON TOLD TROOPS NEEDED TO REPEL INVADERS

(Continued from Page One)  
Boone county at the instance of United Mine Workers officials who acted on the advice of Brig. Gen. Bandholtz, U. S. A.

General Bandholtz had been sent to investigate the march by the war department and seeing the proportions it had attained he pointed out plainly just what would happen if it became necessary for the government to send federal troops into West Virginia.

Within 24 hours after the head of the marching column had been turned back from Madison, it became known that the miners in the unionized section of Logan county had not abandoned their intention to move on to Mingo. Altogether their numbers were comparatively small the news spread rapidly thru Kanawha, Fayette and Wyoming counties. Many of the miners who had abandoned the march are said to have retraced their steps and started for Jeffrey where the union miners of Logan were gathered.

**Sends Hurried Call for Help.**  
These reports reached Logan and Sheriff Don Chafin sent a hurried call for help to the sheriffs of neighboring counties and to Governor Morgan.

Two companies of the state police and a number of volunteers were quickly despatched from Mingo county to Logan, while some two hundred or three hundred deputy sheriffs were hastily enrolled in McDowell county and sent to Logan under Sheriff Bill Hatfield.

These forces hurried to the mountain range separating the union and the non-union fields and the state police early Sunday came in contact with a body of men marching toward Logan. In the fight which followed four men were killed.

News of the encounter only added to the seriousness of the situation. From all over the southern part of the state miners were reported as hurrying to join the forces at Jeffrey. This movement was continuing even today and tonight it was estimated that fully 5,000 if not more men were in that region. Governor Morgan appealed to President Harding for troops to quell the disturbance and a proclamation was issued from the white house giving the disorderly elements of West Virginia until tomorrow at noon to disperse and go home.

The mining villages from which the armed men marched into the mountains Saturday and Sunday and where reinforcements are now said to be gathered are far removed from wire communication. Details of what has been going on there have been unknown except to the peace officers at Madison, the county seat, of Boone county and they have persistently refused all information. They admitted however, as late as this afternoon that the force of miners in mountains and villages was increasing almost hourly, that every man had a gun and some of them had two.

## PHYSICIAN HELD ON SHOOTING CHARGE

BUFFALO, N. Y., Aug. 31.—Virginia Wardzekinski, 21, who declares she expected to become the bride of Dr. Samuel Kennedy this afternoon was shot and seriously wounded. The shooting occurred in a hall leading to the office of the physician.

Dr. Kennedy is a prisoner. He has been identified, the police say, by the girl, as the man who shot her.

The physician denies the shooting, however, and in a statement intimates that the girl herself fired the shot. Dr. Kennedy is 66 years old.

The numerous friends of D. K. McCarty will be glad to know the invalid is much better and able to walk about the house. It was a constant stream of good deeds for which both feel most truly grateful and will long remember their benefactors.

Several beautiful selections were rendered by the church choir and the flowers were in charge of the following ladies: Misses Bessie Johnson, Reon Hamilton, Katherine Hayden and Ara Malory.

### Watkinson

The funeral services for Miss Maria Watkinson were held at the family residence on South Diamond street yesterday afternoon at 3 o'clock. Dr. R. O. Post officiating in the presence of a large assemblage of friends.

Before the service Mrs. Helen Brown Read sang two very beautiful songs, "O Love That Will Not Let Me Go," and "Oh Paradise."

Dr. Post read the 90th Psalm and the 15th chapter of First Corinthians. He spoke particularly of faith as shown first by Moses and then its development thru Paul. The greatness of faith and what it means to the individual and to society as a whole was emphasized. Then the pastor made reference to the faith and the sturdy spirit of the English father and the Scotch mother who had founded the home where this funeral was held. There the daughters and the son of the family were born and have spent all the years of their lives. To them it indeed a sacred place, and the influence of the home cannot be told in words.

It was given to Miss Watkinson, Dr. Post said, to live a quiet, retired life, but to those who came in contact with her was revealed her earnest spirit, her zeal for those things in life which are really worth while, and which are taken into account as the years pass.

Many beautiful flower tokens were sent by friends and were in charge of Mrs. W. A. Jenkins, Miss Maude Clayton, Miss Anna Clayton, Mrs. A. R. Taylor, Mrs. Harry Clement, Miss Bessie Russell, Miss Jessie Holmes, Miss Lida Phillips and little Virginia Mulenix and Alma Louise Seigel.

Interment was in Diamond Grove cemetery and the bearers were Harry C. Clement, Marshall Smith, Frank Irving, S. R. Armstrong, Clarence Andrews and George Smith.

Mr. and Mrs. H. T. Kloppenberg and Mr. George Kloppenberg of Springfield were here to attend the funeral.

The members of the Rebekah lodge, with which the deceased was identified, attended in a body.

## WARNED NOT TO INVESTIGATE KLAN

CHICAGO, Aug. 31.—Colonel John V. Clinkin, acting United States district attorney today received an anonymous letter in which he was advised to increase his life insurance before making further investigation of the Ku Klux Klan. ## SIMPLE APPLICATION THAT DISSOLVES BLACKHEADS

No more squeezing and pinching to get rid of those unsightly blackheads, blackheads. There is one simple, safe and sure way to get them out and that is to dissolve them. To do this just get about two ounces of calomel powder from your druggist—sprinkle a little on a hot, wet sponge—rub briskly over the blackheads for a few seconds—wash the parts and every blackhead will be gone.

Pinching and squeezing out blackheads make large pores and you cannot get all of the blackheads out this way—while this simple application of calomel powder and water dissolves every particle of them and leaves the skin and pores in their natural condition. Any druggist will sell you the calomel powder and about two ounces will be all you will ever need.

## STAND GUARD OVER MONEY

Several men of the Shiloh church stood armed guard over the proceeds of the chicken fry—\$250—which occurred Tuesday evening. This unusual action was caused by the appearance of seven strangers who hung around with seemingly no intention of leaving. The unusual demeanor of the strangers aroused the suspicion of the members left to clean up with the result that one of them went to a nearby farm house and secured fire arms.

The members have good reason to believe that the would be robbers waited all night for the members to leave and take the money to some one of their homes. This, however, was what they did not do, as they stood guard all night.

## ILLINOIS SANGAMOS DEFEAT ROODHOUSE

Win Exciting Game by Score of 2 to 1—Both Teams Played a Fast Game in the Field.

Roodhouse, Aug. 31.—In a game filled with thrills the Illinois Sangamos of Springfield defeated Roodhouse here this afternoon by a score of 2 to 1.

The game was largely a pitchers' battle between Hartman and Jansen with both teams playing almost airtight ball thruout. Four double plays featured the game, each team being credited with two.

Cox made a phenomenal grab of a wild throw by Burns in the eighth and retired the runner and saved two runs from crossing the pan. English made a great catch of Cox's foul in the eighth with a man on second and two down while Vermillion, Denny, Holland and Totten also played fine ball.

In the fourth Clark made a grab of Totten's foul and threw to second base where Denny went in the air and pulled the throw down completing a double play.

Neither team was strong with the stick though the Sangamos bunched three hits in the eighth for one run. Their other run was a gift when Burns fell on his face fielding Holland's grounder with two out and it went for a hit.

How the Runs Were Made. In the first inning after Breckenridge had struck out and Larr had gone down Denny to Cox, Holland hit to Burns. The Roodhouse shortstop made a clean pickup but fell on his face when he started to throw to first and the hit went for a single. Holland stole second and took third on Bergelin's single to left. Totten hit a slow one to Worthy who fumbled momentarily and Holland counted. Bergelin took third and was caught at the pan when he tried to score.

Denny first up for Roodhouse in the first inning hit the first ball pitched for a single and stole second. Clark hit to Totten and was out at first. Denny going to second. He tried for home and was doubled, English to Veach. Burns fouled to Veach.

Roodhouse knotted the count in the fourth. Clark first up singled and was sacrificed to second by Burns. Cox was out Totten to English. Worthy peeled off a triple to left and Clark counted the only run for Roodhouse.

Neither team was able to put over another counter until the eighth. Then Breckenridge singled to left and stole second. Larr was out on a fly to Hartman attempting to bunt. Holland hit to Burns who made a wild heave in the direction of first base. Cox made a wonderful one handed jumping catch and retired the runner, Holland taking third. Bergelin singled and Holland scored. Totten singled sending Bergelin to third. Totten stole second but English was out. Worthy to Cox. The score—

## FORMER CHAMPION LOSES FUTURITY

Rose Scott Last Year's Two Year Old Futurity Winner Defeated By Favonian—Periscope Keeps in Blue Hill \$2,000 Stake.

Readville, Mass., Aug. 31.—Rose Scott, the champion two-year-old, futurity winner of last year, went down to defeat at the Grand Circuit races today when the Tennessee Colt Favonian, owned by J. Fred Edman, took the measure of Tom Murphy's filly in the American Horse Breeder Futurity for three-year-olds trotters.

Rose Scott won the first heat easily apparently because Favonian did not get a good start and Edman had difficulty in getting a position for the final brush. After that Favonian was master of the situation always having speed in

## LAST MINUTE CHANGE IN RACING PLANS

Mile Speed Boat Championship of North America Left Undecided—May Be Raced Monday or Tuesday.

DETROIT, Mich., Aug. 31.—A last minute change in plans by officials in charge of the Gold Cup-Harmsworth Trophy regatta here left the one mile speed boat championship of North America undecided today. Three hydroplanes, Miss America I, of Detroit, holder of the title, Miss Chicago, of the Chicago Yacht club, and the Orlo III, owned by George Leary of New York, competed against time today, but it was announced additional trials will be held immediately after the British international (Harmsworth) trophy race, to be completed Monday or Tuesday of next week.

The change in plans was made to permit Garfield A. Wood, of Detroit, to enter his new Miss America II in the mile tests. It was announced also that Orlo III might make new trials.

Miss America I, that last year set a world's record of 74.655 miles an hour in the mile trials, averaged 74.87 miles an hour in six dashes today. When the cham-

pion's figures were announced today, Wood smilingly remarked: "She's slipping."

He anticipates a speed in excess of eighty miles an hour with Miss America II, however.

The world's record for single-engined hydroplane was raised to 70.951 miles an hour by Miss Chicago, in her six one-mile dashes today. The old mark was 63.498 miles an hour made here in 1918 by Whip-o-Will, Jr., owned by A. L. Judson of New York. Orlo III, the only other boat to enter the mile trials today, made an average of 55.436 miles an hour, more than two miles an hour slower than her speed at Buffalo August 14, of this year. At that time she averaged 57.7798.

Score: New York, 020 036 231—17. Washington, 111 001 500—9. Collins, Quinn, Hoyt and Mann; Zachary, Schacht, Coney and Garrity.

## Daily Market Report

### WHEAT MARKET HAD A FIRM FINISH

By Associated Press.  
CHICAGO, Aug. 31.—Wheat made a firm finish on the Chicago board of trade here today. Houses with export connections took the surplus out of the market on the break and later in the session when the extent of export business at the seaboard was given out shorts started a covering movement, which carried prices sharply higher. The close in wheat found prices 1¼ to 1½c up; corn 1 to 1½c higher and oats 1c lower to 1½c higher.

There was considerable pressure early but offerings were readily absorbed and prices advanced readily to above yesterday's finish after being off around one cent early. A break of nine cents in premiums at Winnipeg and 30¢ at Minneapolis was responsible for selling that made the inside figures of the day. Houses with seaboard connections were fair buyers on the break.

Corn also recovered during the latter part of the session from early losses. September went to a fractional premium over the December after being even with that delivery early in the day. Export demand was brisk with liberal sales to the east from here.

Oats declined under liquidating sales early but rallied sharply later cash houses buying September and selling December.

Provisions were weaker and lower with liquidation in January lard a feature. The lower cotton market had somewhat of a depressing effect. Support was light and selling scattered.

### J. T. WALBRIDGE WAS VISITOR HERE YESTERDAY

John T. Walbridge came to Jacksonville yesterday for a brief business visit. Mr. Walbridge now has a contract for the construction of a large bridge near Taylorville and a force of men is at work there. Members of his family are now in Chicago, having returned from an automobile trip to Maine. Earlier in the summer Mr. Walbridge drove with them to the White Mountain country and then returned to Illinois to look after his business interests. However, he went east two weeks ago in order to make the return trip with his family.

Auto travel in the eastern country was especially enjoyable and some time was spent about the

mountain and lake resorts of New England.

## CHARLES S. NORTON DIES IN MONTANA

Was Brother of Mrs. Thomas Fletcher of South Jacksonville—Formerly Resided in Franklin.

Word has just been received by Mrs. Thomas Fletcher, of 324 Pennsylvania avenue, of the death of her brother, Charles S. Norton, at his home in Absarokee, Montana, on Thursday, Aug. 25. Death was caused by dropsy and heart trouble.

His daughter, Miss Ruby Norton, who is connected with the Crow Indian Baptist mission as a missionary, writes that during his illness of two years he often spoke of the goodness of God in caring for him and especially during the past summer he often told his family how happy he was and how much God had done for him.

Mr. Norton was 54 years of age at the time of his death. From childhood his home was made with Mr. and Mrs. Samuel Seymour, and he attended the Franklin schools.

He was united in marriage to Miss Sallie Spire, a sister of Mr. Francis Spire, of the vicinity of Franklin, and Mrs. Frank Baptist of Jerseyville, and the late William Spire. To this union seven children were born. A son, Carroll, preceded him in death.

The family resided several years in Nortonville, Iowa, being named for Mr. Norton in appreciation of the esteem in which he was held.

Early in life he became a Christian, uniting with the Baptist church. Through his life he was an earnest worker in church affairs and during his residence in Nortonville he was often called upon to fill the pulpit during the absence of the pastor.

In 1908 the family moved to a ranch at Absarokee, Mont., which Mr. Norton farmed until his illness.

Besides his widow and children he leaves to mourn his loss the following brothers and sisters: William, of Oakland, Cal.; Thomas, of Absarokee, Mont.; Mrs. Anna Baird, of Rochester, N. Y.; and Mrs. Thomas Fletcher, of this city.

#### FEDERAL BAKERY PLANS IMPROVEMENTS

Walter Smith, manager of the Federal bakery, on West State street, has announced that he is going to remodel the whole bakery shop next week and will make some very attractive alterations.

The most unique part of the improvement will be a modern kitchen. This kitchen will occupy the entire front window and the window is to be greatly enlarged. The hungry public will be able to watch the preparation and the cooking of the delicious things that the Federal Bakery makes. Another feature will be that of the salesroom. It will be entirely separated from the other parts of the bakery, thus making the whole process more hygienic.

Work on these new improvements will begin next week and Mr. Smith expects to spend several hundred dollars for this enterprise.

#### NOTICE TO WATER CONSUMERS

The State Health Department, after analyzing many samples of city water taken from various parts of the city during the past three months, has declared it to be perfectly safe and recommends its use for drinking and all domestic purposes.

All faucets in the house should be opened at the same time for a few minutes before using for drinking purposes so as to clean out the service pipes.

#### BEAUTIFUL GIRLS IN "LISTEN IRENE" COMING TO GRAND SATURDAY

"If you're not pretty, you've got to be smart," is a bit of feminine philosophy which homely daughters of Eve have evolved for their own consolation. But Helen Janis, one of the featured members of Listen Irene George E. Wintz's Musical Comedy which will be seen at the Grand theater Saturday, matinee and night, goes a bit further with her theory.

"If you are pretty, you have to be just twice as intelligent as you would otherwise," she says. "Of course that doesn't apply to the pretty girl who is willing to be the pretty girl type for the rest of her life—or as long as she keeps her good looks." Being one of the most exquisite studies in pink and white which ever bloomed, Helen ought to know, and according to her peach bloom complexion has been a draw-back to ambition rather than a spur. "A stage beauty, if she has real brains, needs every ounce of them," said Miss Janis, during a backstage recently. "If she wants to be known as an actress, rather than a mere beauty, she finds that her most difficult task is living down her appearance. Managers insist upon her appearing in productions in which she doesn't have a thing to do except make a pleasing stage picture. The public refuses to believe that she has brains. Her friends compliment her upon her looks—and forget to mention her acting."

Woods-Berry

The marriage of Robert N. Woods and Miss Truth Berry, both of Waverly, remained a secret to most of the young couple's friends until Wednesday evening, when the marriage was announced at a miscellaneous shower given by Mrs. Glen Stevenson, the bride's sister, at her residence on South East street. They were married in Winchester on August 5th and only a few relatives and very intimate friends knew anything of the occurrence.

The guests enjoyed a pleasant evening of games and music during which refreshments were served. The newlyweds will make their home on a farm in Morgan county.

The guest list at the party here included Mr. and Mrs. J. M. Berry, Mr. and Mrs. Lowell Hughes, Mr. and Mrs. Bird Peebles, Beatrice Berry and Merle Smedley, all of Waverly; Mrs. Johnson and daughter, Grace; Mr. and Mrs. Frank Branstetter, Miss Esther Samples, Miss Rena Baylis, Mrs. McBride and daughter, Miss Susie, Mr. and Mrs. Eugene Keefe, Mr. and Mrs. J.
